

# 1. References

The references below have been checked for accuracy as part of the preparation of the report and all URLs contained within them were live as of July 20<sup>th</sup>, 2021. Each reference that is available online has also been added to the SJR Digital Archive (SJRDA) available at <https://sjrda.unf.edu> to ensure that the materials are permanently available. Those entries with a URL starting with <http://sjrda.unf.edu/items/view> have already disappeared from their original links and are thus only available online in the SJRDA. References where the URL starts with <http://sjrda.unf.edu/items/forward> are still available online, however due to problems with some URLs in PDF files, they do not link correctly when converted to PDF, so the forwarding function at the SJRDA site is used avoid this problem.
